

I am writing in concern with LPFM stations taking over transmitter stations air time such as K-LOVE, 88.9 FM. This station is our family's favorite. It is positive music without sex and drugs and violence. I am a mother of 4 children 13 and under. I greatly appreciate the positive outlook and music, as well as the encouragement the station gives to families. There is currently no other radio station available to us that meets the needs of our family as KLOVE does. We strongly support keeping transmitter stations on the air. Thank you for your time in reading this.

Sincerely

Roxanne Rahn
